Ed,

Thanks for the inquiry. We offer significant discounts for volume purchasing of Moly Resin. Example: one quart of Moly Resin is \$45.00 but one gallon (mixed colors) is \$145. This breaks down to four quarts for the price of three quarts. This gives you one free quart.

In regard to our class III products, all of our out-of-state purchasers are dealers, therefore, prices on our website are dealer. We only have retail prices for class III products in AR.

John Norrell

*Thanks for the speed reply John,*

*I would like to order one gallon with those colors:*

- 1- 1Qt. GRAYISH-BLACK Flat*
- 2- 1Qt. GREENISH-GRAY Flat*
- 3- 2Qt. BLACK Flat*

*I basically built custom M4's and others and in every one that I have done with your product I got lots and lots of compliments, I have experienced all the products available from Brownells complete line, KG GUN-KOTE, Duracoat/Lauer and decide to stay with yours, thanks for offering such good product. This is my second business, my primary income comes from refinishing (from custom bikes to 18 whellers) for the last 21 years, so I know the "spray gun"..LOL*

*Please send it COD (\$151.00) to:*

**HDPS Corp.**  
*Eduardo Montagna*  
*15706 68th Court North*  
*Loxahatchee, FL. 33470*
