

Dear Mr. Norrell:

Well, your MOLY RESIN is everything you said it was. It went on easily and left an absolutely beautiful finish on 10 UZI magazines I did. They match the finish on my UZI SMG (Action Arms) perfectly. And clean-up was a snap. The only drawback is listening to ~~my~~ my wife bitch about the smell in her oven - but hey - you learn to ignore wives who just don't understand why a man wants all his mag's to match the gun! You gotta have pride in your toys.

I'm so pleased, I now want to do my grips and forearm on my M16. Could you send me another quart of your MOLY RESIN only this time I want the!

Grayish-Black for Colt AR-15/M16

Enclosed is a check for \$44.00 for the resin and shipping. Thanks for your time and thanks for a great product.

Jim ~~Amatt~~
