

8-6 92

Dear Mr. Powell,

My name is Anthony ~~Printz~~. I am the gunsmith for North Country Outfitters in Fargo North Dakota. I am interested in purchasing some of your Moly Resin and would like additional information. I have several shotguns with 28"-30" barrels that will not fit into my home oven. Does the Moly Resin have to be baked or could it just cure for an extended period of time? I have talked to people who have had excellent results with your product. Any information you could provide would be greatly appreciated.

Sincerely,

Anthony ~~Printz~~
